

Research Project Proposals

due 9/9

Guidelines

- Introduction
 - **Clearly describe** the main idea
 - **Motivations** (why do we need it?)
 - Briefly mention **previous work**, and point out what (if any) of their **limitations** you will be addressing
 - Itemize the **contributions** you hope to provide
- Approach
 - Briefly describe approach you intend to follow (this may be adapted/refined later, as needed...)
- Experimental Setup
 - What **data you need**, and how you plan to gather them
 - High-level ideas on how to **organize the experiments** (again, this may be adapted/refined later, as needed...)
- Notes for measurement papers:
 - emphasize the potential uses of measurement results
 - put more thought on the experimental/measurement setup!

Guidelines

- LaTeX is **mandatory**! (send me the .tex)
- Due date **9/9, 11:59pm**
- Presentations
 - 5 minutes each, on 9/9 during class
 - Summarize the points I listed in max 5 slides
