Purpose: The purpose of this lab is to take an optional makeup lab quiz, to check your lab grades, and to study for our course’s final exam.

Instructions

1. You may take the optional makeup lab quiz during your registered lab period. If you take the optional makeup lab quiz and your grade on the makeup lab quiz is greater than your lowest lab quiz grade, then at the end of the semester, your makeup lab quiz grade will replace a single lowest lab quiz grade. Otherwise, if your makeup lab quiz grade is less than or equal to your lowest lab quiz grade, then it will not replace your lowest lab quiz grade (there’s no penalty for taking the makeup lab quiz).
2. Check your lab grades (lab attendance, lab quizzes, and web page project), and if there are any errors or mistakes in your lab grades, then discuss them (or email a regrade request) to your lab instructor.
3. Use the rest of your lab time to study for our course’s final exam.

Note: Lab attendance will not be taken during this last week of labs.

Congratulations! You have reached the end of the labs for our course for this semester!
